

PRETORIA BOYS HIGH SCHOOL

PRETORIA BOYS HIGH SCHOOL - SUMMARY OF MATRIC RESULTS 2021

Pretoria Boys High School is pleased to announce its 2021 Matric results. The Class of 2021 has shown a slight decline in the pass rate. While the impact of the pandemic on education in the past two years might be viewed as having adversely affected the classroom teaching experience of pupils, the school provided extensive academic support during this period. It is disappointing that not all pupils availed themselves of the opportunities that were available. Under the circumstances, the large majority of boys in this group of matriculants need to be commended for their efforts.

PASS RATE AND BACHELOR RATE

The group obtained a 97.3% pass rate compared with the national pass rate of 76.4%. The Gauteng province was second in the country in terms of pass rate and our local district, Tshwane South, was for the third year in a row, the best-performing district in the country.

The percentage of those obtaining a Bachelor's pass, which entitles students to pursue further education at university, increased this year by 2.7% to 85.2%. The National Bachelor's pass rate is 36.4%.

It is worth noting that in pure Mathematics and in Physical Science, the school had 82% and 71% of the total matric group taking these subjects respectively. These figures are significantly higher than the large majority of schools in the country.

Pretoria Boys High School would like to thank the parents and Governing Body for their support in achieving these results during what has been a difficult two years. Above all, the school would like to thank the teachers, who have had to adapt, adjust and improvise during this time and who continue to go over and above the call of duty, for their dedicated service.
